Prométour maintains the confidentiality, security, and integrity of personal information that we obtain from our users. We limit the personally identifiable information we collect to only that which is required to participate on a Prométour Tour. This includes your name, address, email address, phone number, date of birth, Passport number, emergency contact information and financial data such as credit/debit card and/or checking account numbers.

Collection of Non Personal Information

On our website (www.prometour.com), we collect site traffic data from cookie usage on our site. We also use information about types of Web browsers, Internet Service Providers (ISPs), referring and exit pages, operating systems, date/time stamps, and number of clicks to analyze trends, administer the site, track users' movement, and gather broad demographic information for aggregate use. We also keep track of search terms, so we know what visitors to our site are looking for. We do this so that we may better develop the site to meet the needs of our users.

The Way We Use Information

We use the information you provide about yourself when placing an order, only to complete that order. We are required to collect this information in order to complete your travel documents. We do not share this information with outside parties except to the extent necessary to complete your reservation.

Personal information collected by Prométour or through www.registration-prometour.com is stored in secure operating environments that are not available to the public. We use return email addresses to answer the email we receive.

Such addresses are not used for any other purpose and are not shared with outside parties.

Our Commitment to Data Security

We exercise great care in providing secure transmission of our users' financial information from their computers to our servers by using encryption technology. We use secure online forms (SSL certificates) and store all information in protected operating environments inaccessible to the public.

Use of "Cookies"

"Cookies" are pieces of information that a website transfers to your computer's hard disk for record-keeping purposes. The use of cookies is an industry standard, used to provide useful features for customers. Cookies by themselves, do not personally identify users, although they do identify a user's computer. Most Web browsers automatically accept cookies, but you can usually change your browser to prevent that. If you do so, however, you might not be able to take full advantage of our website in the future.
